

Counterpart Insight™ Healthcare

Counterpart Insight is an intuitive Work Management Solution that provides an optimised set of tools to help your organisation stay on track.

Deliver quality on time & within budget

Healthcare is an ever-changing environment and significant organisational changes can be very challenging; assessment, planning, implementation and reporting are key factors needed for any organisation to reach its goals.

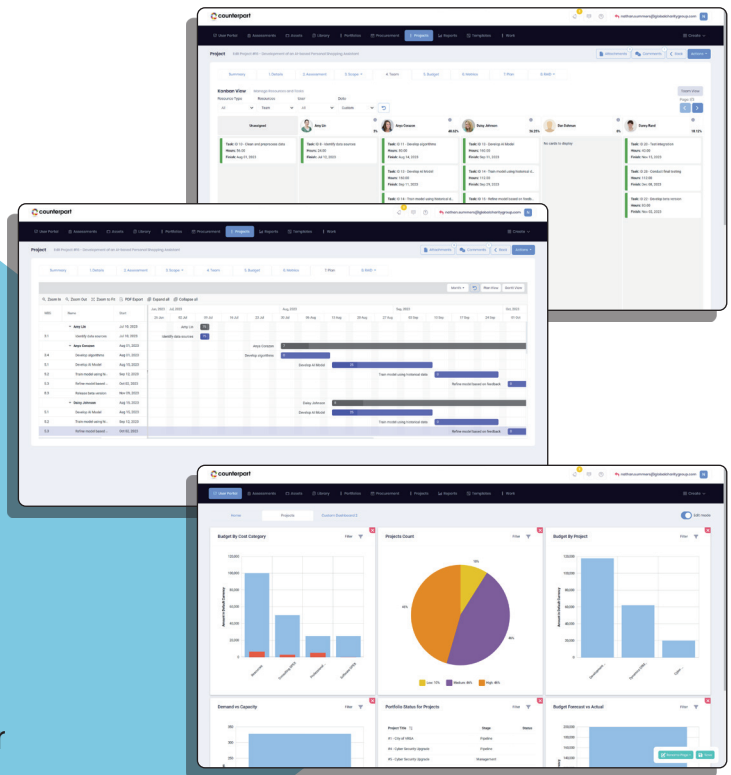

How can Counterpart Insight help?

Assessing & Reporting

Counterpart Insight provides real-time reporting on all of your projects and initiatives. Our Risk Management dashboards enable you to see at a glance potential issues within your initiatives. Therefore, allowing you to develop a more effective strategy.

Planning & Resource Management

Strategic planning is a key factor in reaching your goals; Counterpart Insight enables you to easily map your projects with structured timelines and key milestones. Easily assign tasks and manage your resources with our visual planner.

Cost management

Counterpart Insight offers you a streamlined way to track and measure budgets and costs of all your initiatives and projects. Our configurable dashboards provide up to date financial information on your organisations ongoing and future projects or initiatives.

Change Management

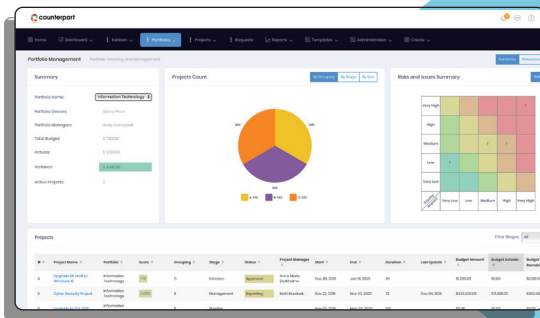

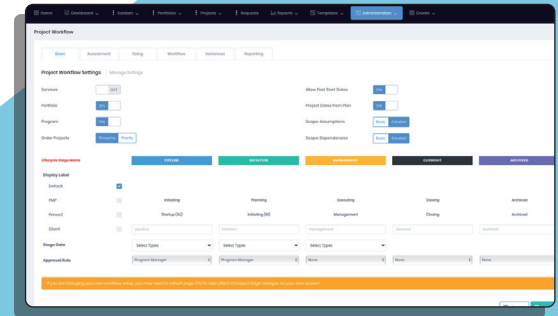

Many healthcare organisations are increasingly finding the need to change the way their services are delivered. Developing a concrete change management strategy that will help your organisation improve productivity, increase growth and add value.

Counterpart Insight can support your organisation through its transformation journey with easy to use tools that enable advanced planning, resource management, collaboration and real-time reporting.

Governance & Security

Counterpart Insight gives you control of your project governance and security. Create and re-use a library of proven project templates with flexible project routing through configurable approval rules. Establish alternate workflows, to suit your project size and complexity.

Our secure platform is ISO & SOC Compliant, and all data is encrypted in transit and at rest. Counterpart Insight™ allows you to define access using role-based security. We can also integrate with Active Directory for single sign-on*.

What makes Counterpart Insight different?

Counterpart Insight offers simplicity, low implementation cost, and ease of use. We've designed Insight to help organisations that want a streamlined Work management solution. Offering all the project essentials: structured start-up, intuitive planning tools, rich collaboration, powerful reporting, dashboards, and customisable project workflow controls.

Enabling Productivity Through Innovation

Counterpart Insight is a Work Management Platform that provides a simple and centralised method to manage and collaborate on programs and projects that are linked to strategic initiatives and objectives.

*Active Directory integration & single sign-on available upon request.
